

INDEPENDENT LIMITED ASSURANCE STATEMENT

To: The Stakeholders of Micron

Introduction and Objectives of Work

Apex Companies, LLC (Apex) has been engaged by Micron Technology, Inc. (Micron) to provide limited assurance of selected sustainability data included in its 2025 Sustainability Report. This assurance statement applies to the Subject Matter included within the scope of work described below.

This information and its presentation in the 2025 Sustainability Report ('the Report') are the sole responsibility of the management of Micron. Apex was not involved in the drafting of the Report. Our sole responsibility was to provide independent assurance on the accuracy of the Subject Matter. This is the third year in which we have provided assurance over Micron's Sustainability Report.

Scope of Work

The scope of our work was limited to assurance over select environmental and social data and information including greenhouse gas (GHG) emissions, energy use, water use, waste by disposition, health and safety, workforce, product lifecycle management, materials sourcing, intellectual property protection and competitive behavior data (Table 1).

Our assurance does not extend to any other information included in the Report.

Reporting Boundaries

The following are the boundaries used by Micron for reporting sustainability data:

- Operational Control
- Worldwide

Reporting Criteria

The Subject Matter needs to be read and understood together with the following reporting methodologies for determining the information, as described in the Report:

- World Resources Institute (WRI) and World Business Council for Sustainable Development (WBCSD) Greenhouse Gas Protocol Corporate Accounting and Reporting Standard;
- Sustainability Accounting Standards Board (SASB) Standards for Technology & Communications – Semiconductors (TC-SC), Version 2018-10;
- Company protocol.

Limitations and Exclusions

Excluded from the scope of our work is any verification of information relating to:

- Activities outside the defined verification periods;
- Text or other written statements provided in the Report.

This limited assurance engagement relies on a risk-based selected sample of sustainability data and the associated limitations that this entails. This independent assurance statement should not be relied upon to detect all errors, omissions or misstatements that may exist.

Responsibilities

This preparation and presentation of the Subject Matter in the Report are the sole responsibility of the management of Micron.

Apex was not involved in the drafting of the Report or of the Reporting Criteria. Our responsibilities were to:

- Obtain limited assurance about whether the Subject Matter has been prepared in accordance with the Reporting Criteria;

- Form an independent conclusion based on the assurance procedures performed and evidence obtained; and
- Report our conclusions to the stakeholders of Micron.

Assessment Standards

- We performed our work in accordance with Apex's standard procedures and guidelines for external Assurance of Sustainability Reports and International Standard on Assurance Engagements (ISAE) 3000 Revised, Assurance Engagements Other than Audits or Reviews of Historical Financial Information (effective for assurance reports dated on or after Dec. 15, 2015), issued by the International Auditing and Assurance Standards Board, and ISO 14064-3 Second edition 2019-04 on Greenhouse gases – Part 3: Specification with guidance for the verification and validation of GHG statements.
- A materiality threshold of ± 5 -percent was set for the assurance process.

Summary of Work Performed

As part of our independent assurance, our work included:

1. Assessing the appropriateness of the Reporting Criteria for the Subject Matter;
2. Conducting interviews with relevant personnel of Micron;
3. Reviewing the data collection and consolidation processes used to compile the Subject Matter, including assessing assumptions made, and the data scope and reporting boundaries;
4. Reviewing documentary evidence provided by Micron;
5. Reviewing Micron systems for quantitative data aggregation and analysis;
6. Assessing the disclosure and presentation of the Subject Matter to ensure consistency with assured information; and
7. Performing an in-person site visit of a Micron facility in Singapore.

Conclusion

On the basis of our methodology and the activities described above:

- Nothing has come to our attention to indicate that the Subject Matter has not been properly prepared, in all material respects, in accordance with the Reporting Criteria; and
- It is our opinion that Micron has established appropriate systems for the collection, aggregation and analysis of quantitative and qualitative data included in the scope of work.

Statement of Independence, Integrity and Competence

Apex is an independent professional services company that specializes in Health, Safety, Social and Environmental management services including assurance with over 30 years history in providing these services.

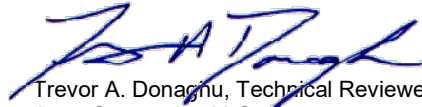

Apex has implemented a Code of Ethics across the business to maintain high ethical standards among staff in their day-to-day business activities.

No member of the assurance team has a business relationship with Micron, its Directors or Managers beyond that required of this assignment. We have conducted this verification independently, and there has been no conflict of interest.

The assurance team has extensive experience in conducting assurance over environmental, social, ethical and health and safety information, systems and processes, has over 20 years combined experience in this field and an excellent understanding of Apex's standard methodology for the verification of greenhouse gas emissions and sustainability data.

This assurance statement, including the opinion expressed herein, is provided to Micron and is solely for the benefit of Micron in accordance with the terms of our agreement. We consent to the release of this statement to the public or other organizations, but without accepting or assuming any responsibility or liability on our part to any other party who may have access to this statement.

Table 1 - Reporting Year 2024 Micron Data Subject to Assurance		
Type	Unit	FY2024
GHG Emissions		
Scope 1 and 2 GHG Emissions		
Total Scope 1 GHG emissions	Metric tons of carbon dioxide equivalent (MTCO2-e)	2,574,449
Scope 1 GHG emissions - Process GHGs	MTCO2-e	1,806,807
Scope 1 GHG emissions - Heat transfer fluid	MTCO2-e	251,489
Scope 1 GHG emissions – Stationary fuel combustion	MTCO2-e	493,921
Scope 1 GHG emissions - Refrigerant	MTCO2-e	14,984
Scope 1 GHG emissions - Solvent combustion	MTCO2-e	6,836
Scope 1 GHG emissions - Mobile sources	MTCO2-e	412
Scope 1 process GHG emissions - Perfluoro-compound contribution	MTCO2-e	1,646,804
Scope 2 GHG emissions (Location-based, not included in report)	MTCO2-e	4,118,730
Scope 2 GHG emissions (Market-based)	MTCO2-e	4,002,529
Energy		
Total energy consumption (Scope 1 and 2)	Megawatt hours	11,792,797
Renewable Energy Consumed Globally	Megawatt hours	783,874
Purchased renewable electricity	Megawatt hours	783,604
Renewable electricity generated on-site	Megawatt hours	270
Purchased steam and cooling	Megawatt hours	187,501
Percentage Grid Electricity (of total energy)	Percentage	78%
Percentage Renewable Electricity (of total energy)	Percentage	7%
Renewable Electricity Consumed in U.S.	Megawatt hours	188,249
Percentage renewable electricity consumption in U.S. (of total electricity consumed in U.S.)	Percentage	18%
Water		
Total water withdrawn	Thousand cubic meters	58,182
Total water consumed	Thousand cubic meters	14,628
Percentage of water withdrawn in regions with high or extremely high baseline water stress	Percentage	17%
Waste		
Total waste generated	Metric tons	232,861
Total hazardous waste from manufacturing	Metric tons	141,059
Total hazardous waste diverted	Metric tons	105,443
Total waste reduction, reuse, and recycling rate	Percentage	95%
Employee Health and Safety		
Description of efforts to assess, monitor, and reduce exposure of employees to human health hazards	Discussion and analysis	yes
Total amount of monetary losses as a result of legal proceedings associated with employee health and safety violations	USD	\$300

Table 1 - Reporting Year 2024 Micron Data Subject to Assurance		
Type	Unit	FY2024
Recruiting & Managing a Global & Skilled Workforce		
Percentage of employees that are foreign nationals	Percentage	5%
Percentage of employees that are located offshore	Percentage	81%
Product Lifecycle Management		
Company approach to IEC 62474 declarable substances contained in products	Discussion and analysis	yes
Product efficiency claims noted in the report (DDR5 1-beta node efficiency claims)	Discussion and analysis	yes
Materials Sourcing		
Description of the management of risks associated with the use of critical materials	Discussion and analysis	yes
Intellectual Property Protection & Competitive Behavior		
Total amount of monetary losses as a result of legal proceedings associated with anti-competitive behavior regulations	USD	0
